01 EXPERIENCE

Senior UI Developer, Innuva IT Solutions, Alexandria, Egypt
1/7/2019 - present (was a Junior 3 UI Developer in the same company 15/5/2018 - 30/6/2019)

- Developed Front-End web pages with HTML,HTML5, CSS3, JavaScript, TypeScript and Jquery

- Resolved Browser compatibility issues on Microsoft Edge and safari using customer requirements as a baseline

- Designed and Implemented web pages that met business and user goals and requirements while increasing end user satisfaction by 40%

- Collaborated with customers and project managers to determine project scope and timeline and adhered to this timeline without overspill in an Agile environment

- Developed web applications using variety of javascript frameworks (ex: Angular, Vue.js) that increased code readability and maintainability by 40% and reduced development time by 50%

- Created pixel perfect web layouts following UX designs on various UX programs (ex: Figma - Adobe XD - Adobe Illustrator) while maintaining responsiveness across even the smallest devices and contributed to over 80% decrease in UI bugs and issues

- Organized multiple projects Versions and branches Using Git while managing the projects and measuring team performance using Jira and TimeCamp to insure a smooth simultaneous development process

- Created and maintained multiple WordPress single sites and multi-sites using themes and plugins that insured customer satisfaction as well as end user satisfaction with the beautiful responsive web blogs

- Learned multiple Frameworks on the go from documentations and research then used them immediately in new projects with minimum time overhead reducing expected project time consumption by 20% and producing bug free working prototypes in short time (ex: learned Vue.js my first day in Innuva then started making new components for a running project the second day)

UI Developer, ITSpark, Alexandria, Egypt
1/7/2017 - 14/5/2018

- Designed, edited and implemented psd mock-ups for various websites insuring 100% client satisfaction

- Adhered to project timelines and schedules while providing a daily report with all tasks completed

- Used Html, Css, Javascript and WordPress to develop highly customized responsive web solutions and application

Graphic Designer, Brightery, Alexandria, Egypt
1/10/2015 - 1/10/2016

- Designed Creative logos and identities for marketing campaigns for various social media pages and products that increased sales by 60%

- Created targeted social media designs that increased pages engagement by 30%

- Designed high resolution eye catching printable banners and posters

- Created character concepts and character design for 2d characters used in social media campaigns that increased users satisfaction and engagement
